Subject Audit
What do you keep doing by hand?
I keep manually extracting colors from screenshots
Make it
Start from scratch
A color palette generator from any image
Pixel-sort an image for a glitch poster
A type scale calculator with modular ratios
Noise texture generator with grain controls
Your library
Tools you make appear here and persist across sessions.

4

01 · Printed Encyclopedia

Rank & File

A history of power and the ideas that climbed it, written from the bottom.

02 · Physical AI Device

Face Saver

A one-button plug-in that rewrites your idea into something a senior can say yes to.

03 · Interactive Installation

Chain of Command

An idea typed at the bottom, rewritten by every rung on its way to the top.

Thank you!
